

# Lionel Brooklyn Navy Yard & Conrail Box Cars

Metropolitan Division TCA

Prototype Artwork Shown  
actual graphics may vary

Prototypically Correct - brown door on one side and yellow door on the other; just like the real life car!

METCA is excited to offer these two unique Lionel 6464 sized box cars. The Brooklyn Navy Yard Box Car (1901260) is decorated to honor the men and women that built our Navy's ships (background images are navy ships at the dock; doesn't reproduce well in picture shown; actual car will look nice). The Conrail Box Car (1901370) exhibits the unique FGE scheme and matches the real life car with a brown door on one side and a yellow door on the other. Both cars are Made in USA by Lionel. Cars feature die-cast trucks, metal frames and brake wheels. Order either car separately or save on shipping and order both cars. You can also order online and pay with your credit card or PayPal.
