

Middletown & New Jersey Box Car

Metropolitan Division TCA

Available Exclusively from METCA

Prototype Artwork Shown
Actual graphics may vary
Roof, ends, and trucks are silver

Order NOW – Limited Time Offering

Funny enough, the Middletown & New Jersey railroad has nothing to do with Middletown New Jersey but is actually based in Middletown, New York! The MNJ is a short line railroad with almost 50 miles of track in southeastern New York serving Orange County and the Hudson Valley. The graphics on this box car are inspired by actual real life Middletown & New Jersey box cars. This 100% Lionel made and decorated 6464 sized box car is molded, decorated, and assembled in the USA. The car (2101610) features a stamped metal frame, metal brake wheel and die-cast sprung trucks. Please, do not delay; order today. You can also order online and pay with your credit card or PayPal. Go to

www.METCA.org

Available exclusively from METCA Division.
