

Air Force One Unibody Tank Car

Metropolitan Division TCA

Available Exclusively from METCA

Prototype Artwork Shown
Actual graphics may vary

Order NOW – Limited Time Offering

Inspired by the famous Air Force One 747 airplane which carries the President of the United States. This deco scheme features numerous graphic elements found only the AFO plane, such as the Star and Bars Air Force insignia in multiple places, the round Presidential seal on the sides, and tail numbers (road numbers) 28000 and 29000 found on the actual 747's. This car makes the ideal companion to METCA's previously released Air Force One SD70ACE as well as any manufacturers Union Pacific Bush 4141 locomotives. Car features diecast trucks, metal underframe, and all of the standard Lionel features that are included in Lionel's regular unibody tankers. Please, do not delay; order today. You can also order online and pay with your credit card or PayPal. Go to www.METCA.org

Available exclusively from METCA Division.

Production Quantity Already Fixed – First Come, First Served

First Come-First Served. **Only limited quantities will be made.** Order early, avoid disappointment.
