

Boxcar Brewing Co. Box Car Order Form

Metropolitan Division TCA

One Car
Two Different Sides

Prototype Artwork Shown - actual graphics may vary
Order NOW – Limited Time Offering

Boxcar Brewing Co. was the name chosen for a short-lived micro-craft brewery in southeastern Pennsylvania. As part of their advertising and community outreach the brewery actually had West Chester Railway Lines box car #657 decorated with their railroad track logo. Our car features 2 different WCRL heralds; one side of the car features the classic round shield while the other side features block lettering. This is one car with different graphics on each side, so to display or run both sides at the same time, order 2 cars. This 100% Lionel made and decorated 6464 sized box car is molded, decorated, and assembled in the USA. The car (2101220) features a stamped metal frame, metal brake wheel and die-cast sprung trucks. Please, do not delay; order today. You can also order online and pay with your credit card or PayPal. Go to www.METCA.org

Available exclusively from METCA Division.

Only orders received by April 30, 2021 can be guaranteed. Production begins shortly thereafter.

First Come-First Served. **Only limited quantities will be made.** Order early, avoid disappointment.

All checks or money orders must be in U.S. funds. Make checks payable to METCA.
