Inspired by the graphics on the METCA Exclusive A5 0-4-0 steam locomotives, these two box cars make awesome additions to any collection, in so many ways; pair with your A5 loco or add to any holiday themed collection or series. The Christmas car features simulated snow drifts along the eve line with subtle Santa with his sleigh and reindeer. The Halloween car features a spooky black widow spider, along with little spiders all over the boarded-up door ... with a set of red eyes peeking out between the boards. Order either car individually or order the set and save \$\$\$. These 100% Lionel made and decorated 6464 sized box cars are decorated and assembled in the USA with beautiful smooth sides and single door guides. Please, do not delay; order today.
